

Your engagement options with Source

With IR35 coming into play from April 2020, Status Determinations will now be decided by the client. Moving forward our contractors may well be offered a combination of **Inside and Outside of IR35** opportunities.

Here at Source, we have put together a PSL, that provides accountancy solutions for Limited Companies, as well as an Umbrella solution, giving you the flexibility to work Inside and Outside should you choose to.

Our PSL has been put together based upon our contractor's feedback on their service, and each company has the following accreditation, giving you peace of mind.

Introducing **The Flex Engagement Solution.**

Each of the above companies offer a flexible solution, whereby if you engage with their accountancy services for your Limited Company, they will give you their Umbrella solution for free if you take on any Inside IR35 contract bookings.

The choice is yours

An easy way to engage between Inside & Outside IR35 freelance bookings

Cost effective

Competitively priced accountancy services & free use of umbrella solution
